Michael Nuccitelli, Psy.D.

Michael Nuccitelli, Psy.D. is a New York State licensed psychologist, forensic consultant and creator of iPredator (2010). He completed his doctoral degree in Clinical Psychology in 1994 from Adler University in Chicago, Illinois. In November 2011, Dr. Nuccitelli established iPredator Inc. offering educational, investigation and advisory services related to cyberstalking, cyberbullying, internet predators, cybercrime & the dark side of cyberspace.

In June 2013, Dr. Nuccitelli launched his internet safety website, [iPredator](#), and two blogs, [Dark Psychology](#) & [Dr. Internet Safety](#). These sites offer online users an incredible amount of information, education, and advisory services. Since 1985, Dr. Nuccitelli has worked in behavioral healthcare in a variety of capacities with various clinical populations.

iPredator Inc.

iPredator Inc. is a New York State Internet Safety Company founded in September 2011 to provide educational and advisory products & services to online users and organizations. Their areas of expertise include cyberbullying, cyberstalking, cybercrime, internet defamation, cyber terrorism, online predation, internet addiction and the new field he is pioneering called [“Cybercriminal Psychology”](#). His goal is to reduce victimization, theft and disparagement from online assailants.

Dr. Nuccitelli is always available, at no cost, to interact with online users and media. In addition to his [professional services](#), Dr. Nuccitelli has authored a variety of internet safety tools, cyber-attack risk assessments and [diagnostic tests](#) available as hard copy PDF files.

Although iPredator Inc. has joined a multitude of social networking sites, feel free to visit the social sites listed below they use as their information and announcement vehicles. If you have

questions, feel free to call iPredator Inc. in New York at (347) 871-2416 or by sending correspondence using his website's contact page by clicking here: [Contact Us](#).

“The Information Age technocentric concept of being “connected” is a paradox of disconnection causing us to lose control of our instinctual drives for social cohesion, allegiance and selflessness. As our dependency upon Information and Communications Technology (ICT) grows, spreading throughout our collective human consciousness, the less we care for our neighbors and the more we delude ourselves into thinking that online connections are far more valuable than reality-based relationships.” Michael Nuccitelli, Psy.D. (2014)
